

Audio Tech's Balanced Microphone cable is a professional microphone or line level audio cable.
2-core shielded cables

FEATURES

Construction: - The tow-conductor and cotton shielding arrangement cancels electromagnetically induced noise from fluorescent lighting ballasts and AC power transformers.

Super Flexibility: - Large numbers of thin bare copper wire strands in both the conductors and shield produce a highly flexible

Insulation: - Excellent electrical characteristics and no shrink-back during soldering.

Coil Length - 100 Mtr.
